1.2	IT Security Department	No Change Required	Mr. Awadhesh Saini-IT Head	CISO

Overview

Sensitive documents and materials are liable to intentional or unintentional disclosure to unauthorized parties when they become unaccounted for. A Clean Desk Policy is a useful tool for helping ensure that sensitive and confidential material does not go unaccounted for or become exposed. A Clean Desk Policy in its most basic form requires employees to completely clear their desks at the end of their workday, moving items to drawers and disposing of documents that are no longer needed. This protects Company data from unauthorized access as it reduces the amount of sensitive data that is available to an unauthorized person who may gain access to the Company's premises.

Purpose

The purpose of this policy is to establish a clear procedure and minimum requirement for maintaining a Clean Desk. It details why a Clean Desk is important for data security methods in which this is best achieved.

Scope

This policy applies to all employees, contractors, temporary workers and any other personnel that may work on behalf of the company or within the company's premises.

Policy

No Writing on Floor Policy:

- Paper or pens should not be placed on the floor.

Client Information Restrictions:

- Writing down client-related information or customer phone numbers is strictly prohibited.

Key Security Protocol:

- Keys to file cabinets or secure storage spaces must not be left on desks or in insecure areas.
- Keys used for access to Restricted/Sensitive information must be left in a locked drawer

Computer Security Measures:

- Computers must be locked when not in active use.
- Computers must be shut down at the end of the workday.

Laptop Security Measures:

- Laptops must be locked in secure drawers when not in use.

Printed Material Handling:

- Printed material should be promptly removed from the printer tray.
- Material should not be left unattended around the printing area.

Document Disposal Protocol:

- Documents containing confidential, sensitive, or personal information must be shredded or placed into confidential disposal bins when no longer needed.

Whiteboard Usage Guidelines:

- Whiteboards must be erased after meetings or when they are no longer in use.

Screen Security

- All computer screens must be locked when the employee is away from their desk.
- Screens should be set to automatically lock after a period of inactivity (e.g., 5 minutes).

End of Day Cleanliness and Security:

- Nothing should be kept at workstations after log-out hours. Carry all your stuffs e.g. - water bottles, jackets etc. Before leaving.
- No eatable things are allowed on the floor.
- Personal photos should not be displayed in front of workstations.

Compliance

Compliance Measurement

The H.R. team will verify compliance with this policy through any methods deemed appropriate external audits and feedback to the policy owner.

Exceptions

Any exceptions to this policy must be approved by the H.R. team in advance and have a written record.

Non-Compliance

Any employee found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

Policy Review

This policy will be reviewed annually and updated as necessary to reflect changes in organizational needs, technology, or regulatory
